To: The Recruitment Team – Phu Hung Securities (PHS),

My name is Vi Mạch, a final-year Finance and Banking student at Ho Chi Minh City University of Banking. I am writing to express my strong interest in joining Phu Hung Securities as an intern. I view this opportunity as the perfect platform to learn and cultivate the professional mindset needed for a future Business Analyst within the financial industry.

My academic background has provided me with a solid foundation in cash flow logic and accounting procedures. I am eager to apply this knowledge to assist in reviewing workflows and, more importantly, to learn how to document professional processes under expert guidance at PHS. While my previous internship at ACB introduced me to customer needs analysis and financial reporting, I am keen to refine these skills within the sophisticated and high-standard environment of your firm.

Managing the website and digital strategy for Impressivo Klaviere & Flügel allowed me to develop a data-driven approach. However, I am highly motivated to learn how to integrate technology and automation into real-world financial operations to enhance efficiency. I believe that hands-on experience at PHS will be the best way for me to bridge the gap between digital analysis and operational optimization.

Additionally, my role as Vice Head of External Relations at the STEP English Club helped me build a foundation in communication and negotiation. I am looking forward to further developing these skills—specifically in stakeholder coordination—through practical tasks at Phu Hung Securities. I am committed to a proactive learning attitude and am confident that I can contribute effectively to your team while gaining the invaluable professional experience I seek.

Thank you for your time and consideration.

Sincerely ./.
Vi Mạch.

Vi Mach
